Our Beginning:

Dilip Industries started in 1987 with the vision of creating highly efficient and extremely high-quality printing ink. Everyone at Dilip Industries strives hard to develop products as per client requirements and serve the printing industry with the best product available in the marketplace.

We have headquarters in Mumbai city. Our rigorous testing process backed by laboratory helps us control raw material quality and ink consistency. We serve industry best quality in at an economical price.

We are leading manufacturers and developers of printing ink in India and have an established client across the globe. We are now going green.

Our Infrastructure:

We have a well-designed and well-equipped infrastructure which is divided into various departments such as manufacturing unit, in-house laboratory and warehousing facility. We have two manufacturing units each with the production capacity of 900 tons per year.

Our Clientele:

Leveraging on the efficiency and potentiality of our professionals, we endeavour to attain maximum customer satisfaction by providing good quality products, lasting solutions and services, consistent. We believe in maintaining and expanding long-term client relationships rather than building a short-term relationship with a long list of clients. Innovative technology backed by our technical and customer support has helped in establishing leadership of Flexographic and Rotogravure inks. Our product is available in Indian as well as the global marketplace.

- Middle East Countries
- South America
- Africa - East, west & north
- Asian Countries

Warehouse and packaging:

We have a well-built warehousing unit which is capacious to store bulk amount of our range of printing inks. The material used for packing is durable, avoiding any reaction with the stored material.

"Owing to innovative technology and modern machineries, wide gamut of the products is made of supreme quality raw material in compliance to international standard".

Our Mission:

Build the product, best of its quality that can enrich the life of the people. We leverage our expertise and experience in implementing solutions to environment crises. We work hard each day to get closer to our goals.

Our Vision:

Large companies speak of their size. Small companies speak of their focus. To be the most ethical, prudent focused ink and coatings supplier to our partners in the packaging industry. We strive to meet and exceed the expectations of our partners by providing services ensuring performance without compromise.

Our Values:

- Passion towards customer satisfaction by providing superior performance and strong relations.
- Value to any business can be achieved by strong ethical values like honesty, openness and transparency.
- Undertaking existing challenges and harnessing new and innovative technologies to solve them.

**THE BEST
WAY TO
PREDICT
FUTURE IS
TO CREATE
IT.....**
